QuietWrap™ 3002 is an acoustic laminate composed of a abrasion resistant fabric and noise damping foam. A fully backed adhesive system provides fixation for challenging geometries and locations where traditional methods struggle.

The combination of fabric and foam provides excellent noise suppression while offering a high level of abrasion protection. QuietWrap 3002 is more durable than standard foam.

Our manufacturing sites are certified ISO 9001, IATF 16949, or AS/EN 9100, ISO 14001 and ISO 45001 (Selected Sites)
